PHYSICAL ACTIVITY - MODERATE

The trip is a good mix of activity and relaxation and includes moderate physical activities. participants should be active 3-4 hrs most days. An active lifestyle is helpful though not required to enjoy the trip.

IS THIS TRIP RIGHT FOR YOU?

- This itinerary features some long travel days by road. It is recommended that you pay close attention to the given approximations of driving hours. As the early bird catches the worm, there will be many early starts either to make better use of the day or to beat the morning traffic.
- Life's too short to stick to a boring schedule! We reserve the right to shuffle the days if required as we go. Expect a little spontaneity, and we'll be rolling with the punches to make this trip even more exciting! While we're zooming between destinations, our food options may be a bit... limited. Think of it as an opportunity to test your snack-game skills. So, bring your appetite (and maybe a backup snack).
- Party animals, take note: This trip is more about adventure than after-party. If you're looking for wild nights and neon lights, you might want to bring your own glow sticks. We're all about sunrise hikes, game drives, and adrenaline highs here.
- Hotel? More like 'home': In some of the smaller towns, finding a hotel is like finding a unicorn. So, we've opted for service apartments—meaning no two rooms will be the same. Embrace the surprise, and think of it as "room roulette"! Every stay is unique, just like your adventure.
- Load shedding is part of the South African experience, especially in the smaller towns. So, if you find yourself suddenly in the dark, don't worry - it's just the power taking a little nap. Stay patient, and remember, it's all part of the adventure!
